

What subjects will I study? What will I be doing in my lessons? Frequently Asked Questions

Maths

Welcome to Shoeburyness High School Maths Department.
My name is Mr Stanford and I am Head of Faculty.

In year 7 you will have two Maths lessons per week and during these your teachers will help you to explore the exciting range of mathematical topics.

You will discover how Maths impacts virtually everything we do in our lives. From money to engineering; from design to sport and in our day to day lives. Together we will apply the Maths you have already learnt in your primary schools along with the new skills that you will master to projects that interest and excite you.

Our Department is made up of teachers from many different backgrounds and countries. Mathematics is a universal language; it is applied in the same way all around the world.

We are all looking forward to meeting you and helping you on your journey of understanding Mathematics.

Maths Team

Here is an introduction to the members of our department

Mr Currie Head of Key Stage 3
Mrs Caton Head of Key Stage 4
Ms Angel
Mr Amoh
Mr Cottee
Mr Darcy
Mr Facey
Mrs Hoban
Mrs Lewis Maths Mentor
Mr Mann
Ms Rose
Mrs Rymill
Mrs Tastsoglou

Useful Links

It is always good to practise what you have already learnt at primary school and the most important thing in maths that runs through all of the topics is **times tables**. So whatever stage you are at now the website below is a fun way to practise your speed and recall ready for year 7.

You will also be able to try out the games on the site.

<https://www.mathsisfun.com/>

corbettmathsprimary.com also has loads of practise material for all topics you will have covered in primary school. So going over some of those resources will be excellent preparation for starting here in year 7. Especially the '5-a-day' worksheets!
